Common name	Latin name	Description
Cooktown Tulipwood	Harpullia arborea	Small to medium tree with spreading habit. Very showy orange fruit from the branches. (Sapindaceae)
Coolamon	Syzygium moorei	A beautiful rainforest tree from northern NSW. Large bunches of fluffy pink flowers are borne on the trunk and main stems, but the tree needs to be mature before flowering will occur. (Myrtaceae)
Cooper Creek Lilly-Pilly	Syzygium glenum	Very rare plant from Cooper Creek near Cape Tribulation in the Daintree area. Very large, leathery, rusty brown fruit. (Authorised Propagators Qld.No. APQF198/000050) (Myrtaceae)
Copper Glow	Leptospermum "Copper Glow"	Medium to tall shrub with beautiful coppery tinge to the foliage. Can be formed into a lovely rounded shape with regular light pruning. Best in full sun. (Myrtaceae)
Corkwood	Melicope elleryana	Fast growing tree with beautiful pink flowers along the branches. Food plant of the spectacular Ulysses Butterfly. (Rutaceae)
Cotton Candy	Melaleuca "Cotton Candy"	Small shrub. Dense rounded shape with bright pink feathery flowers. Full sun. Great rockery plant. (Myrtaceae)
Crater Ironwood	Rhodomyrtus canescens	Shrub or small tree with weeping branches. Small white flowers. Plant in full sun or semi-shade. (Myrtaceae)
Creek Satinash	Syzygium australe	Large shrub to small tree. Bushy and hardy. Ideal as a screen plant. Masses of white flowers followed by edible pink fruit. (Myrtaceae)
Creek Satinash (NQ Bushy Form)	Syzygium australe "N. Qld Bushy Form"	Bushy shrub with masses of white, fluffy flowers followed by edible pink fruit. Ideal for use as a screen plant. Suitable for most areas. (Myrtaceae)
Creek Satinash SQ Form	Syzygium australe Sth. QLD form	Medium to large, dense shrub with masses of white, fluffy flowers followed by edible pink fruit. Ideal for use as a small screen plant. Suitable for most areas. (Myrtaceae)
Cribbwood	Corynocarpus cribbianus	Tree with large stiff glossy leaves. Showy large deep red fruit eaten by cassowaries. (Corynocarpaceae)
Cunjevoi	Alocasia brisbanensis	Lily-like plant with large, soft leaves. Does best in semi-shade with plenty of moisture. (Araceae)
Cypress Pine	Callitris intratropica	Small to medium pine tree with dark green foliage. Very hardy but fairly slow growing. Plant in full sun. Good for dry areas. (Cupressaceae)
Daintree Medinilla	Medinilla balls-headleyi	Scrambling or semi-prostrate shrub with beautiful pale pink flowers and psychedelic pink fruit. Makes a lovely hanging basket specimen. (Melastomataceae)
Daintree Penda	Lindsayomyrtus racemoides	Rainforest large shrub to small tree with eye-catching mauve new flushes of leaves. (Myrtaceae)
Daintree Pine	Gymnostoma australianum	Rare and ancient small tree with typical pine tree shape. Dense, bright green foliage. Does best in full sun. Makes a great Christmas Tree and tub plant. (Casuarinaceae)

Common name	Latin name	Description
Daintree Satinash	Syzygium monospermum	Medium sized rainforest tree with paired, stem-clasping leaves. New flushes are mauve. (Myrtaceae)
Damson	Terminalia sericocarpa	Fast growing, slender tree with layered spreading form. Deciduous. Old leaves are brightly coloured. Attracts birds. Hardy. (Combretaceae)
Davidson's Plum	Davidsonia pruriens	Small slender tree with large lobed leaves and masses of large purple plum-like fruit. Makes good jam, salted plums or wine. Best in high rainfall areas. (Davidsoniaceae)
Dawson River	Callistemon "Dawson River"	Tall weeping shrub with red flowers. Attractive to birds. Very hardy. Will tolerate both wet and dry conditions. Can be pruned to act as a screening plant. (Myrtaceae)
Dissiliaria	Dissiliaria surculosa	Extremely rare plant from Cape York Peninsula. Medium to large shrub with very attractive, dense foliage. Pyramid form. Quite hardy. Sun or shade. (Euphorbiaceae)
Dwarf Baeckea	Baeckea virgata "Miniature"	Ideal for rockeries, this dwarf form of Baeckea spreads to form a small, mounded shrub. Masses of white flowers. Prune lightly after flowering to keep compact. (Myrtaceae)
Dwarf Golden Penda	Xanthostemon chrysanthus "Little Goldie"	A compact, dwarf cultivar of the popular Golden Penda making a rounded bush, rarely more than 1 metre high, with narrow dark green leaves about 8 cm long. New growth bronzy pink. (Myrtaceae)
Dwarf Harpullia	Harpullia frutescens	A lovely small slender shrub with fragrant white flowers. Needs a moist shady position (Sapindaceae)
Emerald Beauty	Callistemon "Emerald Beauty"	Medium shrub growing with dense compact foliage and pink new growth. Showy red bottlebrush flowers with yellow tips. Hardy and suitable for most areas. (Myrtaceae)
Emu Bush	Eremophila bignoniflora x polyclada	Medium spreading shrub for drier areas, blue bell flowers. Plant in full sun in well drained soil. (Myoporaceae)
Eureka	Callistemon "Eureka"	Tall upright shrub with brilliant purple flowers in profusion in spring. Showy pink new growth. Suitable for screening. (Myrtaceae)
Feather Tips	Baeckea "Feather Tips"	Small shrub. Dainty form with weeping, feathery branches. May be pruned heavily into a dense bush if required. (Myrtaceae)
Fern-Leafed Tamarind	Sarcotoechia serrata	Large shrub or small tree with beautiful fern-like foliage and delicate soft pink new growth. Requires semi-shade and regular watering. A beautiful ornamental plant. (Sapindaceae)
Fibrous Satinash	Syzygium fibrosum	Large shrub to small tree with purple new growth. Large white fluffy flowers and delicious red fruit. Very hardy. Makes tasty jam. (Myrtaceae)
Finger Lime	Citrus australasica	Small, dense, bushy shrub with sausage-like lime-flavoured fruit. Very hardy, but slow growing. Suitable for making drinks. Not suitable for dry inland areas. (Rutaceae)
Firesprite	Grevillea "Firesprite"	Small to medium shrub with bright red flowers. Attracts birds. (Proteaceae)

Common name	Latin name	Description
Fishtail Oak	<i>Neorites kevediana</i>	Beautiful medium sized tree with extremely attractive, long pinnate leaves and deep maroon new growth. Cream flowers in terminal spikes. Not suitable for dry inland areas. Makes a great tub plant. (Proteaceae)
Flame Tree	<i>Brachychiton acerifolius</i>	Produces masses of brilliant red flowers. Deciduous when flowering. Hardy and fast growing. Food plant of Common Aeroplane and Penciled Blue Butterflies. (Authorised Propagators Qld.No. APQF198/000050) (Malvaceae)
Flax Lily	<i>Dianella atraxis</i>	Small clumping plant with broad upright leaves. Dark blue flowers on long stalks. Best in semi-shade. (Hemerocallidaceae)
Flax Lily	<i>Helmholtzia acorifolia</i>	A clumping perennial from Far North Queensland. Dark green narrow leaves. Sword shaped leaves. Spikes of clustering white flowers in summer. Needs boggy/water conditions. Full/semi shade. (Philydraceae)
Flecker's Hard Alder	<i>Neostrearia fleckeri</i>	Rare, medium-sized evergreen rainforest tree with alternate leaves and pendent spikes of white flowers in winter (May to July). Needs high rainfall and shelter. (Hamamelidaceae)
Forest Red Gum	<i>Eucalyptus tereticornis</i>	Fast growing, tall stately tree with smooth, mottled trunk and white flowers. Timber tree. (Myrtaceae)
Forest Siris	<i>Albizia procera</i>	Medium tree with open spreading habit. Attractive blue-green leaves and small cream flowers. Hardy. (Fabaceae)
Garraway's brachychiton	<i>Brachychiton garrawayae</i>	Large shrub or small tree with attractive pink flowers. Unusual plant from Cape York Peninsula. (Authorised Propagators Qld.No. APQF198/000050) (Malvaceae)
Giant Flowered Wax Vine	<i>Hoya macgillivrayi</i>	Small, slow growing vine with very large, spectacular, deep maroon, perfumed flowers. Makes a wonderful hanging basket specimen. Best in semi-shade. (Asclepiadaceae)
Glasshouse Country	<i>Callistemon "Glasshouse Country"</i>	A tall shrub with bottlebrush flowers. The foliage is stiff and sharply pointed with pale young growth. The main flowering periods are spring and autumn. (Myrtaceae)
Glennie River Gardenia	<i>Gardenia sp. Glennie River</i>	A very hardy native gardenia with prostrate habit. Large, stiff leaves and white flowers. Does best in dappled shade. (Rubiaceae)
Glossy Laurel	<i>Cryptocarya laevigata</i>	Bushy shrub/small tree with shiny green foliage, pale green new growth and bright red fruit. Food plant of the Blue Triangle Butterfly. Excellent for understory or shade. (Lauraceae)
Glue Berry	<i>Cordia dichotoma</i>	Very hardy tree with attractive weeping branches and masses of pink fruit which attract birds. Food plant of Common Aeroplane Butterfly. (Boraginaceae)
Golden Myrtle	<i>Metrosideros queenslandica</i>	Small to medium tree with dense foliage. Spectacular heads of bright yellow flowers. Requires regular watering. Suitable only for high rainfall areas. (Myrtaceae)
Golden Paperbark	<i>Melaleuca leucadendra "Gold"</i>	A hardy small tree with upright habit and golden foliage. Excellent for a wet spot. (Myrtaceae)
Golden Penda	<i>Xanthostemon chrysanthus</i>	Large shrub or small tree with spectacular, large heads of bright yellow flowers. Tip prune when young to create bushy form and promote mass flowering. Hardy. (Myrtaceae)

Common name	Latin name	Description
Golden Shower	Cassia sp. Paluma Range	Small tree with glossy dark green foliage, spectacular racemes of bright yellow flowers, and beautiful brown papery bark. A beautiful native cassia. Very hardy. (Fabaceae)
Golden Tea Tree	Melaleuca bracteata "Gold Form"	Tall bushy shrub with attractive golden foliage and dense habit. A very hardy plant which is an excellent screen. (Myrtaceae)
Grevillea venusta	Grevillea venusta	Medium to large shrub with attractive lobed leaves. Unusual yellow and green flowers. Very hardy, plant in full sun. (Proteaceae)
Grey Myrtle	Backhousia myrtifolia	Large dense shrub or small tree with masses of white fluffy flowers. Very hardy. (Myrtaceae)
Grey Rhodomyrtus	Rhodomyrtus effusa	Medium to large shrub with long weeping branches. Attractive rusty hairs on leaves. White flowers. Plant in full sun or semi-shade. (Myrtaceae)
Gully Satinash Yellow Form	Syzygium hedraiophyllum Yellow Form	Small bushy tree with large glossy leaves and weeping branches. Attractive red/brown new growth. (Myrtaceae)
Hairpin Banksia	Banksia spinulosa	Small shrub. Dense habit with spectacular large gold Banksia flowers. Best in full sun. Suitable for most areas. (Proteaceae)
Hairy Aspen	Acronychia crassipetala	Very hardy shrub or small tree. Creamy coloured flowers attract many small butterflies, yellow fruit is eaten by pigeons. Best in moist or very wet conditions. (Rutaceae)
Hairy Bush-Pea	Pultenaea villosa	Small shrub with hairy young growth and yellow to orange pea flowers. Hardy. For sun or part shade. (Fabaceae)
Hannah Ray	Callistemon "Hannah Ray"	Hardy medium to large shrub. Soft new growth. Weeping form. Bright red flowers. Makes a good screen. (Myrtaceae)
Harkness	Callistemon "Harkness"	Large rounded shrub. Masses of bright red bottlebrush flowers. A very popular cultivar. (Myrtaceae)
Heath Myrtle	Baeckea virgata	Medium shrub with weeping form, fine foliage and dainty white flowers. Tolerates part shade and heavy pruning. (Myrtaceae)
Herberton Baeckea	Baeckea sp. Herberton Range	Very pretty medium shrub with fine, dainty foliage and very weeping habit. Tiny white flowers in profusion. (Myrtaceae)
Hickory Ash	Flindersia ifflaiana	Fast growing, very hardy tree with large spreading crown. Ideal shade tree. Mass of white flowers & unusual seed pods. (Rutaceae)
Holly Fuchsia	Graptophyllum ilicifolium	Small shrub. Stiff, holly-like leaves and deep purple/red flowers. Very hardy. For full sun or semi-shade. (Acanthaceae)
Honey Gem	Grevillea "Honey Gem"	Large spreading shrub with deeply divided, mid green leaves. Nectar-laden orange flowers are produced throughout the year. Attracts birds. Fast growing, hardy. Excellent screen. Full sun. (Proteaceae)

Save \$1.00 per plant for 10 mixed plants (\$10.90 each)

Save \$2.00 per plant for 50 mixed plants (\$9.90 each)

Save \$3.00 per plant for 200 mixed plants (\$8.90 each)

No discount for bulk for species marked with * (green pots)

Common name	Latin name	Description
Honeycomb	Grevillea "Honeycomb"	Erect shrub naturally bushy with dense foliage to the ground. Cream flowers prolific in early spring attracting birds. Good screen plant for most areas except in areas with cold winters. (Proteaceae)
Hooker's Toothbrush Grevillea	Grevillea hookeriana	Spreading shrub. Tiered branches with grey-green foliage and red flowers which attract birds. For well-drained, sunny position. Hardy, best in cooler climates. (Proteaceae)
Hybrid midyim	Austromyrtus dulcis x tenuifolia	Small bushy slender-leafed shrub with masses of small pale pink flowers followed by edible fruit. (Myrtaceae)
Injune	Callistemon "Injune"	A very pretty, weeping plant with dainty soft grey foliage and lovely pale pink bottlebrush flowers (Myrtaceae)
Irvinebank Grevillea	Grevillea glossadenia	Very attractive, hardy shrub. Leaves green, silver beneath with bronze new growth. Orange flowers amongst foliage. (Proteaceae)
John Evans	Grevillea "John Evans"	Small shrub. Attractive red spider flowers in spring. For semi-shade or full sun. Best in cooler climates. (Proteaceae)
Joseph's Satinash	Syzygium banksii	Large dense bushy shrub or small tree. White flowers and purple fruit. Hardy & tolerates salty winds. (Myrtaceae)
Kapok Tree	Bombax ceiba	Sparsely branched deciduous tree with brilliant scarlet flowers in late winter and seed capsules that release kapok. (Malvaceae)
Katie Bells	Lomandra hystrix "Katie Bells" (PBR)	A selection of Lomandra hystrix bearing larger more prolific bold yellow perfumed flowers for months at a time. Both drought and wet tolerant, it thrives in sun/semishade. (Asparagaceae)
Kay Williams	Grevillea "Kay Williams"	Fast growing, bushy shrub. Masses of large pale orange/peach flowers for most of the year. Needs a well drained, sunny position. (Proteaceae)
Kings Park	Callistemon "Kings Park Special"	A robust, medium to large shrub with deep red flowers in profusion. Prune to shape. Remove old flowers to keep tidy. Suitable for screening. (Myrtaceae)
Knobby Club Rush	Isolepis nodosa	Native clumping sedge. Flower heads are compact rusty brown balls near the top of the stem. Drought tolerant once established but prefers moist soil. Can be grown in full sun or semi-shade. (Cyperaceae)
Lady Apple	Syzygium suborbiculare	Very hardy tree with large, thick, glossy leaves. Large white flowers and red edible fruit. (Myrtaceae)
Large Flowered Cassia	Cassia magnifolia	Striking rambling shrub with very large, glossy leaves and spectacular yellow flowers. Likes open sunny position/arid areas. (Fabaceae)
Large Tussock Grass	Poa labillardieri	Fine blue/green tussock grass with lacy flower heads in summer. Plant in an open position. Tolerates moist/wet soils. (Poaceae)
Lavender Shower	Callistemon "Lavender Shower"	Small shrub. Beautiful lavender flowers for most of the year. Does best in full sun. Best in cooler climates. (Myrtaceae)

Common name	Latin name	Description
Leichhardt Tree	<i>Nauclea orientalis</i>	Large handsome stately tree. Very large leaves and unusual spherical flowers. Excellent for a damp spot. (Rubiaceae)
Lemon Aspen	<i>Acronychia acidula</i>	Small tree with large glossy leaves and large white flowers. Fruit suitable for jam making. (Rutaceae)
Lemon Myrtle	<i>Backhousia citriodora</i>	Large shrub or small bushy tree with masses of fluffy cream flowers. Crushed leaves have a fantastic lemon scent. Quite hardy. (Myrtaceae)
Lemon Scented Tea Tree	<i>Leptospermum petersonii</i> ssp <i>petersonii</i>	Very attractive medium shrub. Foliage has lemon scent. Benefits from pruning. (Myrtaceae)
Lilliane	<i>Grevillea "Lilliane"</i>	Small sprawling plant that can be used in a hanging basket. Pink and white spider flowers. For full sun or part shade. Usually frost resistant. (Proteaceae)
Lilly Pilly	<i>Syzygium smithii</i>	Dense shrub with white flowers and red/brown new growth. Pink to purple fruit. Very hardy. Can be pruned to shape and used as a hedge. (Myrtaceae)
Lilly-Pilly	<i>Syzygium smithii</i> "Minor"	Small, dense shrub with attractive reddish new growth. Very hardy. Suitable for most areas. (Myrtaceae)
Lime Berry	<i>Micromelum minutum</i>	Medium shrub with large heads of small white flowers followed by showy orange fruit. Food plant of Orchard, Capaneus and Ambrax Butterflies. (Rutaceae)
Little Beauty	<i>Melaleuca "Little Beauty"</i>	Tiny plant. Use as an edging plant for a garden bed or rockery. Must be grown in full sun. Suitable for most areas. (Myrtaceae)
Little Cigar Cassia	<i>Cassia tomentella</i>	Spectacular large shrub to small tree with large racemes of showy yellow flowers. Very hardy. (Fabaceae)
Little Euodia	<i>Melicope rubra</i>	Medium to large shrub with masses of dark pink flowers along the branches. Quite hardy. Food plant of the spectacular Ulysses Butterfly. (Rutaceae)
Little John	<i>Callistemon "Little John"</i>	Small shrub with dense blue/green foliage and bright red flowers. Very hardy, but slow growing. Must have full sun. Suitable for most areas. (Myrtaceae)
Lomandra "Katrinus"	<i>Lomandra "Katrinus deLuxe"</i> (PBR)	This clumping lomandra features large showy flowers in spring. Do not waterlog. Full/part sun. (Asparagaceae)
Long-leaf waxflower	<i>Philotheca myoporoides</i>	Formerly <i>Eriostemon myoporoides</i> . A dense shrub with small star-shaped waxy flowers. (Rutaceae)
Lunasia	<i>Lunasia amara</i>	Small to medium shrub with narrow, upright form, and large, attractive, glossy leaves. An unusual plants which makes a terrific filler in a shady spot. (Rutaceae)
Macgillivray's Basswood	<i>Polyscias macgillivrayi</i>	Understorey shrub from Cape York Peninsula about 3-4 metres tall. Glossy green compound leaves. Large terminal inflorescence of flowers and fruits. (Araliaceae)

Common name	Latin name	Description
Mango Pine	<i>Barringtonia calypttrata</i>	Very handsome tree with large leaves and huge racemes of fluffy white flowers that attract birds. (Lecythydaceae)
Mangrove Clerodendrum	<i>Clerodendrum inerme</i>	Hardy shrub suitable for beach plantings. (Lamiaceae)
Mat-Rush	<i>Lomandra hystrix</i>	Attractive clumping plant with stiff, dark green foliage. Does very well in semi-shade. Very hardy with perfumed flowers. (Asparagaceae)
Memecylon	<i>Memecylon pauciflorum</i>	Small, very hardy rainforest shrub with beautiful tiny lilac flowers. (Myrtaceae)
Midyim	<i>Austromyrtus dulcis</i>	Small shrub with small pink flowers and edible fruit. Very hardy. Plant in full sun or semi-shade. (Myrtaceae)
Millgar	<i>Wrightia laevis</i> subsp millgar	Medium, deciduous, lowland rainforest tree with fragrant flowers. (Apocynaceae)
Mint Bush	<i>Prostanthera phyllicifolia</i>	Very compact shrub. Dark narrow leaves with small mauve flowers, blooming over long periods in spring. Grows in moist positions but doesn't like overwatering. (Lamiaceae)
Misty Bells	<i>Agapetes meiniana</i>	Vine that produces beautiful bright pink tubular flowers. Plant in protected spot with lots of moisture. Makes good tub plant or hanging basket. (Ericaceae)
Misty Pink	<i>Grevillea "Misty Pink"</i>	Medium shrub with pink flowers all year. Attracts birds. Hardy with good drainage and full sun. (Proteaceae)
Moonlight	<i>Grevillea "Moonlight"</i>	Tall shrub with cream flowers all year. Attracts birds. Hardy with good drainage and full sun. (Proteaceae)
Mountain Basswood	<i>Polyscias wilmottii</i>	Rainforest tree which may be an epiphyte or lithophyte. Green or yellow flowers. (Araliaceae)
Mountain Malletwood	<i>Uromyrtus metrosideros</i>	Small tree with shiny whorled leaves and spicy-scented white flowers. Needs a protected moist position. (Myrtaceae)
Mountain Satinash	<i>Syzygium endophloium</i>	Large bushy shrub with attractive red new growth. Mass of fluffy white flowers. Garden or tub. (Myrtaceae)
Mountain Tamarind	<i>Guioa montana</i>	Large shrub or small tree with new growth covered in silky/brown hairs. Best suited to a sheltered position. (Sapindaceae)
Mr Foster	<i>Callistemon "Mr. Foster"</i>	Hardy medium to large dense shrub. Red new growth. Large, bright red flowers. Very showy. (Myrtaceae)
Mt Garnet Pittosporum	<i>Pittosporum</i> sp. Mt. Garnet	Hardy, spreading shrub to small tree with attractive, glossy foliage. Large heads of white flowers. Bright orange fruit. Plant in full sun. (Pittosporaceae)

Common name	Latin name	Description
Mt Garnet Tea Tree	Melaleuca sp. Mt. Garnet	Medium shrub. Bears masses of very showy cream pom-pom flowers twice a year. Hardy. Full sun. (Myrtaceae)
Mt Morgan Wattle	Acacia podalyriifolia	Fast growing large shrub with silvery phyllodes and yellow flowers. Also known as Queensland Silver Wattle. (Fabaceae)
Mt Spurgeon Pine	Prumnopitys ladei	Very rare tree. Quite hardy. Beautiful fern-like foliage remains even when fully grown. (Podocarpaceae)
Mt White Lime	Citrus garrawayae	Finger lime from Cape York. Good bush tucker. Small, dense, bushy shrub with sausage-like lime-flavoured fruit suitable for making drinks. (Rutaceae)
Mt. Tozer Penda	Xanthostemon sp. Mt. Tozer	Large shrub or small tree with rusty brown new growth. Mass of cream flowers. Very hardy (Myrtaceae)
Mulgrave River Cherry	Eugenia sp. Mulgrave River	Very rare shrub with tiny leaves and small white flowers. Beautiful red new growth. Hardy. (Myrtaceae)
Native Acalypha	Acalypha lyonsii	Small, attractive, very hardy shrub with tiny, serrated leaves. Prune to thicken up for the first year. Ideal fill in plant. (Euphorbiaceae)
Native Crepe Ginger	Costus potierae	Rhizomatous plant. Leaves held in a spiral round the stems. Flowers white with yellow markings, in heads on the stem tips. Needs shade, ample moisture and well manured soil. (Zingiberaceae)
Native Croton	Codiaeum variegatum var. moluccanum	Small shrub with dark green glossy foliage, small white flowers. Very hardy. Does best in part shade. (Euphorbiaceae)
Native Draceana	Pleomele angustifolia	Tall shrub with long rambling canes, white flowers and orange berries. An interesting alternative to the exotic dracaenas. (Dracaenaceae)
Native Fern	Asplenium sp. N.T.	Beautiful fern with long dainty weeping fronds. A rare plant from NT. Looks spectacular in a hanging basket. (Aspleniaceae)
Native Fuchsia	Graptophyllum spinigerum	Small shrub. Attractive glossy foliage and small white flowers. For sun or shade. Very hardy. (Acanthaceae)
Native Jasmine	Jasminum aemulum	Medium vine. Very hardy and fast growing. White, perfumed flowers over a long period. Ideal over a trellis or fence. Tolerates sea winds well. (Oleaceae)
Native Jasmine	Jasminum didymum	Medium vine. Very hardy and fast growing. White, perfumed flowers. Ideal over a trellis or fence. (Oleaceae)
Native Jasmine	Jasminum simplicifolium var. australiense	A vigorous, woody twining vine found in most types of rainforest. Yellow to green leaves. Fragrant white flowers are from August to November or at other times after rain. (Oleaceae)
Native Rhododendron	Rhododendron lochiaie	Small shrub with bright red flowers. Requires sheltered, moist position. Makes good tub plant. (Ericaceae)

Common name	Latin name	Description
Native Rosemary	<i>Westringia fruticosa</i>	Hardy compact shrub with blue grey leaves. White flowers produced most of the year. Full sun. Tolerates a wide range of soils and conditions. Prune to shape. (Lamiaceae)
Native Sundew	<i>Drosera binata</i>	Carnivorous habit, leaves covered with sticky droplets. Requires bright sunlight. Stand in water in summer, just moist while dormant in winter. Feed lightly during growing months if indoors. (Droseraceae)
Native Violet	<i>Viola betonicifolia</i>	Small plant with purple flowers. Does best in the shade with regular watering. (Violaceae)
Native Violet	<i>Viola hederacea</i>	Attractive spreading plant with blue and white flowers. Can be grown in the sun if permanently moist. Requires a moist sheltered position. Not suitable for inland areas. (Violaceae)
Ned Kelly	<i>Grevillea "Ned Kelly"</i>	Medium, dense bushy shrub. Showy orange/red flowers for most of the year. Tip prune while young to promote a good shape. Plant in full sun in well drained position. (Proteaceae)
New Guinea Satinash	<i>Syzygium buettnerianum</i>	Very rare tree from Cape York Peninsula. Glossy foliage and masses of showy pink fluffy flowers. (Myrtaceae)
Noah's Gardenia	<i>Gardenia actinocarpa</i>	Extremely rare plant from Daintree area. Small shrub with large, white, perfumed flowers. Best in shade with plenty of moisture. OK as pot plant. Authorised Propagator Qld. No. APQF198/000050. 2001 (Rubiaceae)
Noah's Satinash	<i>Syzygium maraca</i> (sp. Noah Creek)	Medium tree with large dark red fruit. Fairly hardy. Unusual in cultivation. (Myrtaceae)
Northern Brown Pine	<i>Podocarpus grayae</i>	An elegant long-leaf tropical rainforest conifer (Podocarpaceae)
Northern Laurel	<i>Cryptocarya hypospodia</i>	Tree with large leaves. Food plant of Blue Triangle Butterfly. Fruit attracts birds. (Lauraceae)
Northern Malletwood	<i>Rhodamnia spongiosa</i>	Beautiful shrub with glossy pink new growth. Very showy cream flowers & red fruit. Very hardy. (Myrtaceae)
Northern Silky Oak	<i>Cardwellia sublimis</i>	Handsome tree with large glossy compound leaves and very spectacular creamy white flowers followed by huge woody seed pods. Needs a moist protected position. Unsuitable for dry areas. (Proteaceae)
Northern Tamarind	<i>Diploglottis diphylostegia</i>	Small tree with large attractive leaves, and fruit which makes good jam or drinks. (Sapindaceae)
Northern Tea Tree	<i>Leptospermum amboinense</i>	Medium to large shrub. Lovely fresh foliage and small white flowers. Can be pruned to shape. (Myrtaceae)
Nutmeg	<i>Myristica insipida</i>	Bushy tree with dark green leaves, glossy above and paler beneath. Brown oblong fruit with lattice-like red aril (nutmeg) that birds like. Scented flowers. (Myristicaceae)
Orange Marmalade	<i>Grevillea "Orange Marmalade"</i>	Bushy shrub. Attractive orange spider flower. Very hardy and vigorous. Full sun, open position. (Proteaceae)

Common name	Latin name	Description
Pacific Beauty	Leptospermum "Pacific Beauty"	Small shrub with masses of white flowers on weeping branches. Quite hardy. Grow in full sun. (Myrtaceae)
Pacific Rosewood	Thespesia populneoides	An attractive tree to 15 m with light-green, heart-shaped leaves. Flowers are hibiscus-like, yellow, fading to pink, followed by small black fruit. Relative of Hibiscus and Cotton (Malvaceae)
Palm Lily	Cordyline manners-suttoniae	Palm-like plant. Large bright green strap-like leaves. Large bunches of bright red, very showy berries. Best in semi-shade. (Asparagaceae)
Palm-Lilly	Cordyline murchisoniae	Small, slender-stemmed rainforest palm-lily. Panicles of small mauve flowers. Good foliage tub plant. Best in shade or semi-shade. (Asparagaceae)
Pastel Flower	Pseuderanthemum variable	Small herbaceous plant with white flowers and green and silver patterned leaves with purple coloration on the undersides. Self-seeds easily. (Acanthaceae)
Pathfinder	Syzygium "Pathfinder"	A small, dense, pyramid shaped form of Syzygium australe. A good screen. (Myrtaceae)
Peanut Tree	Sterculia quadrifida	Medium spreading tree with small white flowers followed by extremely decorative velvety red fruit containing edible jet-black seeds. Deciduous. (Malvaceae)
Peninsula Aspen	Acronychia peninsularis	Shrub with paired trifoliate leaves, small white flowers and white berries, from Cape York Peninsula. (Rutaceae)
Pepper Vine	Piper novae-hollandiae	A large, bushy climber with attractive leaves and interesting fruit which are eaten by birds. Young plants need shade and a large host or structure to support their growth. (Piperaceae)
Pindi Pindi	Callistemon "Pindi Pindi"	Medium to large shrub with attractive semi-weeping habit. Red flowers. Very hardy. Does best in full sun. Suitable for most areas. (Myrtaceae)
Pink Alma	Callistemon "Pink Alma"	Large shrub with bright pink flowers. Attractive pink new growth. Sun or part shade. Usually frost resistant. (Myrtaceae)
Pink Cascade	Leptospermum "Pink Cascade"	Small shrub. Masses of pink flowers. Plant in full sun. Very hardy. (Myrtaceae)
Pink Champagne	Callistemon "Pink Champagne"	Medium shrub with attractive dainty blue/green foliage. Large bottlebrush flowers which are champagne pink. Benefits from regular pruning. Does best in full sun. (Myrtaceae)
Pink Lace	Melaleuca "Pink Lace"	Tiny shrub with fluffy pink flowers. Ideal as an edge plant for rockeries. Must be grown in full sun. (Myrtaceae)
Pink Phyllanthus	Phyllanthus cuscutiflorus	Large, dense, very attractive bushy shrub with beautiful foliage. Masses of small pink flowers. Ideal screen plant. Very fast growing. (Phyllanthaceae)
Pink Surprise	Grevillea "Pink Surprise"	An evergreen medium sized shrub with fine fern like folidge. During Autumn it bears large pink flowers. Useful for hedging & screening. (Proteaceae)

Common name	Latin name	Description
Pittosporum	<i>Pittosporum moluccanum</i>	Small to medium tree from north Western Australia with dark green, very glossy foliage. Small white flowers in clusters. (Pittosporaceae)
Plum Satinash	<i>Syzygium cryptophlebium</i>	Dense shrub with spectacular bright pink pendulous new growth. Fluffy white flowers are followed by iridescent bright purple fruit. Best in a humid, moist position protected from strong or dry winds. (Myrtaceae)
Poison Walnut	<i>Cryptocarya pleurosperma</i>	Rainforest tree with ovate leaves 7 to 16 cm long, 3.5 to 7 cm wide, and red, pink or orange fruit 4 to 6 cm long, 3 to 50 cm wide, eaten by cassowaries and musky rat-kangaroos. (Lauraceae)
Poorinda Peter	<i>Grevillea "Poorinda Peter"</i>	Spreading, tall shrub with pink-tipped new growth and reddish-purple toothbrush flowers. Does best in full sun. Usually tolerates frost. (Proteaceae)
Powder-Puff Lilly-Pilly	<i>Syzygium wilsonii</i>	Very attractive weeping shrub with bright pink new growth and large red pompom flowers. Should be planted in semi-shade. Highly ornamental. (Myrtaceae)
Prolific	<i>Callistemon "Prolific"</i>	Large shrub with dense foliage. Ideal for use as a screen plant. Large red flowers for most of the year. Suitable for most areas. (Myrtaceae)
Purple Splendour	<i>Callistemon "Purple Splendour"</i>	Open shrub. Display of showy mauve-pink flowers. Benefits from regular pruning. Bird attracting. Best in cooler climates. (Myrtaceae)
Purple Stemmed Turkey Bush	<i>Leptospermum purpurascens</i>	Bushy shrub. Purple new growth, smooth, twisted purplish stem. Prune to shape. (Myrtaceae)
Purple Swamp Orchid	<i>Spathoglottis paulinae</i>	Very attractive ground orchid with bright pink flowers. Plant in a very moist area of the garden or keep in a pot. A rare plant. (Authorised Propagators Qld.No. APQF198/000050) (Orchidaceae)
Queensland Kauri	<i>Agathis robusta</i>	A giant, slow growing, tropical conifer from Queensland's coastal ranges with broad, thick-textured, dark green leaves. An ancient Gondwanan relic with iconic status in Queensland. (Araucariaceae)
Queensland Maple	<i>Flindersia brayleyana</i>	Beautiful timber tree, with masses of white flowers followed by decorative woody seed pods. Best in high rainfall areas in good soil. (Rutaceae)
Red Beech	<i>Dillenia alata</i>	Tree for coastal areas, particularly poorly drained spots. Trunk has beautiful flaky coppery bark. Bright yellow flowers. (Dilleniaceae)
Red Bottlebrush	<i>Callistemon polandii</i>	Compact well shaped medium shrub. Large red brushes with golden tipped stamens. (Myrtaceae)
Red Cedar	<i>Toona ciliata (australis)</i>	Fast growing, hardy tree which develops a spreading shady crown. Famous for its beautiful timber. (Meliaceae)
Red Coffee-Bush	<i>Breynia sp. Iron Range</i>	Shrub with red new growth and masses of small red berries. Food plant of Common Grass Yellow Butterfly. (Phyllanthaceae)
Red Devil	<i>Callistemon "Red Devil"</i>	Medium shrub with showy red flowers. Does best in full sun. Usually frost resistant. (Myrtaceae)

Common name	Latin name	Description
Red Eungella Satinash	Syzygium resa	Small to medium tree with red new growth and white flowers. Small red fruit. (Myrtaceae)
Red Muttonwood	Myrsine subsessilis	Shrub with attractive red new growth and thick glossy leaves. Masses of small white flowers cover the branches. Purple fruit, attracts birds. Does best in semi-shade. (Myrsinaceae)
Red Myrtle	Syzygium monimioides	Very rare plant. Spectacular tree with brilliant red new growth and red flaky bark. (Myrtaceae)
Red Penda	Xanthostemon youngii	Shrub with brilliant red flowers in large heads. Often difficult to grow except in sandy soil. Does best in full sun and well drained sandy soil. A very rare plant. (Myrtaceae)
Red Silky Oak	Carnarvonnia montana	Beautiful large shrub or small tree with unusual compound leaves. Fantastic foliage with very showy rusty brown new growth. Ideal tub plant. (Proteaceae)
Red silky oak	Grevillea banksii	Bushy medium shrub. Red flowers all year round. Hardy and reliable. Attracts many nectar feeding birds. (Proteaceae)
Red Silky-Oak prostrate red form	Grevillea banksii "prostrate Red"	Attractive, prostrate plant. Red flowers. Full sun only. Suitable for most areas. (Proteaceae)
Red Silky-Oak prostrate white form	Grevillea banksii "prostrate White"	Attractive, prostrate plant. White flowers. Full sun only. Suitable for most areas. (Proteaceae)
Red Sunset	Grevillea "Red Sunset"	Small to medium shrub with attractive red spider flowers. Does best in full sun and well drained position. Best in cooler climates. Usually frost resistant. (Proteaceae)
Reeves Pink	Callistemon "Reeves Pink"	Dense, medium shrub. Compact shape. Bright, lolly pink bottlebrush flowers in profusion. A hardy and very showy plant. (Myrtaceae)
Rex Satinash	Syzygium apodophyllum	Beautiful foliage with spectacular deep red, purple or pink new growth. Small white flowers are followed by bright red fruit. Requires a humid protected position. A lovely tub or courtyard plant. (Myrtaceae)
Rhaphidophora	Epipremnum pinnatum	Climbing plant with large glossy leaves and bright orange fruit. (Araceae)
Rib-Fruited Malletwood	Rhodamnia costata	Shrub or small tree with stiff yellow/green leaves and pinkish/brown new growth. Creamy-white flowers (Myrtaceae)
Rice Flower	Ozothamnus diosmifolius	Small shrub with massed heads of fluffy white or pink flowers. Grow in full sun in well drained soil. (Asteraceae)
Ristantia	Ristantia waterhousei	Very rare plant with beautiful pink/orange/red new growth. Large shrub or small tree. Quite hardy. Does best in full sun. (Myrtaceae)
River Cherry	Syzygium tierneyanum	Medium spreading tree with masses of fluffy cream flowers and white or red fruit. Dense foliage. Very hardy. Excellent screen. (Myrtaceae)

Common name	Latin name	Description
Robertson's Tuckeroo	Rhysotoechia robertsonii	Small fast growing tree with bright green foliage. Loads of bright orange fruit which are relished by birds. (Sapindaceae)
Robyn Gordon	Grevillea "Robyn Gordon"	Small shrub. Very bushy with deep red flowers. Plant in well drained position in full sun. (Proteaceae)
Rock Peperomia	Peperomia blanda var. floribunda	Erect semi-succulent herb with attractive leaves. Ideal pot plant. Needs a cool shady spot. (Piperaceae)
Rock Umbrella Tree	Schefflera bracteata (S. versteegii)	Rare umbrella tree from the Cape York Peninsula. Thick bright green leaflets held in a circle round the leaf-stalk. Brown scales on the leaf stalks and shoot tip. Huge panicles of pinkish flowers. (Araliaceae)
Rocky Rambler	Callistemon "Rocky Rambler"	Spreading prostrate plant. Prickly foliage. Bright red flowers. Needs full sun, open position. (Myrtaceae)
Rocky River Lilly-Pilly	Syzygium luehmannii Rocky River	Highly ornamental large shrub with brilliant pink/red weeping foliage, white flowers and red fruit. Water regularly. (Myrtaceae)
Rocky River Red	Callistemon viminalis "Rocky River Red"	Medium to large shrub with blue/green foliage and bright red flowers. Does best in full sun but will flower in part shade. (Myrtaceae)
Rocky River Satinash	Syzygium mackinnonianum	Small to medium tree or shrub from Cape York Peninsula. Abundant panicles of small white flowers followed by red fruit. New flushes bright purple/pink. Very hardy. (Myrtaceae)
Roly-Poly Satinash	Syzygium unipunctatum	Small bushy tree with flushes of brilliant red new growth. Highly ornamental. Will tolerate moderate frosts. Best in high rainfall areas. (Myrtaceae)
Rose Marara	Pseudoweinmannia lachnocarpa	Beautiful shrub to small tree with highly attractive foliage and bright red new growth. Requires a humid, well watered position. Can be planted in full sun, but must be protected from strong or dry winds. (Cunoniaceae)
Rose Opal	Callistemon "Rose Opal"	Small shrub. Deep red brushes which age to rose coloured. Plant in full sun for best results. Makes a good screen. (Myrtaceae)
Rose Satinash	Syzygium johnsonii	Small to medium tree with red/purple new growth. Fluffy white flowers and purple fruit. (Myrtaceae)
Rose Silky Oak	Placospermum coriaceum	Small tree with large spectacular leaves. Pink new growth. Pink flowers. Beautiful cabinet timber. (Proteaceae)
Rosemary-leaf Grevillea	Grevillea rosmarinifolia	Small shrub. Two-toned red and yellow spider flowers. Must be in full sun and well drained position. Tolerates frost and cold winters. Best in cooler climates. (Proteaceae)
Rough-barked Satinash	Syzygium trachyphloium	Small to medium tree with reddish foliage and mass of small red fruit. (Myrtaceae)
Russell River Lime	Citrus inodora	Shrubby tree with glossy leaves and spines on twigs. Edible oblong lime fruit up to 6.5 cm long and 3 cm diameter. Lowland rainforest plant, must be in shade with plenty of moisture. (Rutaceae)

Discounts for bulk purchases of mixed plants, collected in one lot:

Save \$1.00 per plant for 10 mixed plants (\$10.90 each)

Save \$2.00 per plant for 50 mixed plants (\$9.90 each)

Save \$3.00 per plant for 200 mixed plants (\$8.90 each)

No discount for bulk for species marked with * (green pots)

Common name	Latin name	Description
Rusty Cleistanthus	<i>Cleistanthus semiopacus</i>	Medium weeping shrub with pink new growth. Hardy. A great screen. (Euphorbiaceae)
Rusty Laurel	<i>Cryptocarya mackinnoniana</i>	Tree with large stiff leaves and brilliant red drooping new growth. Fruit attracts birds. Food plant of Blue Triangle Butterfly. (Lauraceae)
Saffron Boxwood	<i>Planchonella castanosperma</i>	A beautiful large shrub or small tree with weeping branches and bright red new growth. (Sapotaceae)
Sandra Gordon	<i>Grevillea "Sandra Gordon"</i>	Tall open shrub with masses of bright yellow flowers. Requires a well drained, open, sunny position. (Proteaceae)
Sankowskya	<i>Sankowskya stipularis</i>	Extremely rare plant from the Julatten area of Far North Queensland. Spectacular red new growth. Does best in semi-shade. (Authorised Propagators Qld.No. APQF198/000050) (Euphorbiaceae)
Satin Mahogany	<i>Calophyllum costatum</i>	Large spreading tree with large dark green leaves. Pretty white flowers and round green fruit. (Clusiaceae)
Satin Touriga	<i>Calophyllum inophyllum</i>	Large, handsome spreading tree with large dark green leaves. Pretty white flowers and round green fruit. An excellent shade tree for beach areas. (Clusiaceae)
Satinwood	<i>Buchanania arborescens</i>	Bushy tree with large leaves like those of a mango. Small black fruit are very good to eat. Hardy. (Anacardiaceae)
Scarlet Bean	<i>Archidendron lucyi</i>	Small tree with large leaves and open habit. Beautiful fluffy white perfumed flowers borne on the branches. Extremely decorative orange seed pods. (Fabaceae)
Scarlet Bloodroot	<i>Haemodorum coccineum</i>	Bulb-forming herbaceous plant with slender grassy leaves and panicles of brilliant scarlet waxy flowers in early summer. Prefers a well drained position in full sun. Dies down in the dry season. (Haemodoraceae)
Scented Daphne	<i>Phaleria clerodendron</i>	Shrub or small tree. Masses of long tubular, beautifully scented white flowers. Large red fruit. (Thymelaeaceae)
Screw Palm	<i>Pandanus spiralis</i>	Screw Palm with very prickly leaves and large bunches of orange fruit. Best in a open sunny spot. Tolerates wet feet and best suited in wet spot. (Pandanaeae)
Scrub Aspen	<i>Acronychia laevis</i>	Large shrub with dense bushy habit, deep green glossy foliage, and attractive purple fruit. Drought hardy. (Rutaceae)
Scrub Tamarind	<i>Elattostachys microcarpa</i>	Very attractive small tree with attractive, serrated compound leaves. Bright red new growth. Small roundish woody fruit. (Sapindaceae)
Sea Ebony	<i>Diospyros littorea</i>	Very slow growing shrub to small tree with glossy green leaves. Grows naturally on the coast, close to mangrove stands. Orange-yellow fruit attracts birds. Wood is very hard and beautiful. (Ebenaceae)
Sea Lettuce Tree	<i>Scaevola taccada</i>	Medium shrub with dense, dark green foliage and white flowers. Ideal for beach plantings. (Goodeniaceae)

Common name	Latin name	Description
Stumpy Dave	Graptophyllum "Stumpy Dave" (PBR)	A hardy, small shrub. It bears masses of scarlet red fuchsia type flowers. It looks great in a tub, on a patio or in mass plantings on a garden edge. (Acanthaceae)
Sumac	Rhus taitensis	Fast growing, hardy tree with spectacular reddish brown new growth. Showy white flowers. (Anacardiaceae)
Superb	Grevillea "Superb"	Small to medium, dense bushy shrub. Showy pink/red flowers for most of the year. Tip prune while young to promote a good shape. Plant in full sun in well drained position. (Proteaceae)
Supreme	Syzygium "Supreme"	Small to medium, dense, compact shrub. A small leaved shrub with masses of fluffy white flowers followed by red berries. A great hedging plant. Prefers sun, but will grow well in a little shade. Hardy. (Myrtaceae)
Swamp Banksia	Banksia robur	Medium shrub with large stiff serrated leaves and green, changing to cream, flowers. Will tolerate damp situations. (Proteaceae)
Swamp Isotome	Pratia pedunculata (Blue flowers)	Vigorous creeper. Forms a dense mat dotted with delicate, pale blue star flowers. Benefits from regular pruning. Bird attracting. Best in cooler climates. (Campanulaceae)
Swamp Isotome	Pratia pedunculata (White flowers)	Vigorous creeper, fine leaved. Forms a dense mat dotted with delicate, white star flowers. Benefits from regular pruning. Bird attracting. Best in cooler climates. (Campanulaceae)
Swamp Orchid	Phaius tancarvilleae	Extremely rare ground-orchid with large spikes of spectacular flowers. Best planted in a damp, fairly sunny spot in the garden, however can be kept in a large container in a bush house. Authorised Propagator Qld. No. APQF198/000050. (Orchidaceae)
Tableland Jasmine	Jasminum kajewskii	Rainforest Jasmine from the Wet Tablelands. Strong twining climber with large sweetly fragrant white flowers. (Oleaceae)
Tantoon	Leptospermum polygalifolium	Medium bushy shrub bearing masses of small white flowers in spring. Hardy and adaptable to most situations. (Myrtaceae)
The Bluff	Callistemon "The Bluff"	Medium shrub with dense foliage. Pink bottlebrush flowers fade to salmon, then cream. (Myrtaceae)
Tick Fern	Callipteris prolifera	Very attractive fern with large leaves to 1m long. Small plantlets develop along the leaf and look like ticks. Cold sensitive. (Athyriaceae)
Tinaroo Dazzler	Callistemon recurvus	Medium weeping shrub with small leaves and bright red flowers. Very hardy. (Myrtaceae)
Tinkling Satinash	Syzygium alatoramulum	A beautiful bushy plant with lovely foliage and winged twigs. Exquisite pale purple new growth. Small white flowers and small purple fruit. Requires a humid, protected position. A lovely tub or courtyard plant. (Myrtaceae)
Tree Waratah	Alloxylon flammeum	Medium tree with glossy leaves and spectacular bright red flowers. Protect from wind and provide adequate moisture. Floral emblem of the former Eacham Shire. (Proteaceae)
Tulip Sterculia	Sterculia shillinglawii	Small, slender tree with large hairy leaves. Unusual brown and red flowers. Bright orange pods with black seeds. Hardy. (Malvaceae)

Common name	Latin name	Description
Tully River Myrtle	<i>Backhousia enata</i>	Large shrub with attractive weeping habit. Small glossy leaves. Does well in the shade. Small white flowers. (Myrtaceae)
Variegated Red Muttonwood	<i>Myrsine subsessilis variegated</i>	Shrub with attractive red new growth and thick glossy leaves. Masses of small white flowers cover the branches. Purple fruit, attracts birds. Does best in semi-shade. (Myrsinaceae)
Vic Stockwell's Puzzle	<i>Stockwellia quadrifida</i>	Very rare tree with spectacular bright red to pink new growth. Fairly hardy. (Myrtaceae)
Vine-leaf Kurrajong	<i>Brachychiton vitifolius</i>	<i>Brachychiton vitifolius</i> . An unusual brachychiton from Cape York Peninsula. This is only a very small plant, but it has large lobed leaves and lovely bright pink flowers. The foliage and most parts of the plant are soft and furry. (Authorised Propagators Qld.No. APQF198/000050) (Sterculiaceae)
Water Cherry	<i>Syzygium aqueum</i>	This is the very rare variety of native water cherry from Cape York Peninsula. Medium to large shrub, showy white flowers and highly decorative red fruit. (Myrtaceae)
Water Grass	<i>Lilaeopsis brisbanica</i>	Bright green groundcover plant. A good lawn substitute for moist boggy conditions. Can grow in water. Tolerates sun to part shade. (Apiaceae)
Wax Flower	<i>Hoya australis</i> subsp. <i>australis</i>	A hardy climber bearing masses of white perfumed flowers. May be planted in the garden, but especially suited to hanging baskets. (Asclepiadaceae)
Weeping Cleistanthus	<i>Cleistanthus apodus</i>	Medium weeping shrub with beautiful pink new growth. Hardy. A great screen. (Euphorbiaceae)
Weeping Paperbark	<i>Melaleuca leucadendra</i>	Large tree with weeping foliage and thick white papery bark. Masses of white flowers laden with nectar. Excellent along watercourses and in a damp spot. (Myrtaceae)
Weeping Tea Tree	<i>Leptospermum madidum</i> (Northern Territory form)	Large shrub with extremely attractive weeping form. Beautiful lime green foliage and a stunning smooth white trunk. Best in warm, wet climates. Must have lots of water. (Myrtaceae)
Weevil Lily	<i>Curculigo recurvata</i>	A short, stout herbaceous plant with a lily-like or palm-like appearance. Broad strap-like leaves. Flowers on erect heads. (Hypoxidaceae)
Wenlock Gardenia	<i>Gardenia macgillivraei</i>	Medium to large shrub with large, perfumed, white flowers. Very hardy. Sun or semi-shade (Rubiaceae)
Western Glory	<i>Callistemon</i> "Western Glory"	A medium upright shrub with dark red-mauve bottlebrush flowers. Must be grown in full sun. A hardy shrub, but flowers best in cool climates. (Myrtaceae)
Wheel Of Fire	<i>Stenocarpus sinuatus</i>	Tree with large stiff lobed leaves and bright red flowers. Very hardy and fairly fast growing. A highly ornamental tree. (Proteaceae)
White Anzac	<i>Callistemon</i> "White Anzac"	Small shrub. Bright green foliage with white flowers. (Myrtaceae)
White Apple	<i>Syzygium forte</i> subsp. <i>forte</i>	Hardy tree with bronze papery bark and dense, dark green crown. Large white flowers and edible white fruit. An excellent medium-sized shade tree. (Myrtaceae)
